

It's about time.

The new Onyx® Vantage finger pulse oximeter.

Accuracy you can act on™.

With all of the different patients you see in a day, do you really have time for second guessing?

When it comes to finger pulse oximetry, accuracy does matter. That's because accurate data empowers you to make faster, more informed decisions. Decisions that can lead better outcomes for your patients. And improved productivity and job satisfaction for you.

Onyx is the only pulse oximeter brand with scientifically proven accuracy in the widest range of patients. From pediatric to adult. With motion and low perfusion. On fingers, thumbs and toes.

**The Onyx Vantage 9590 —
Accurate data for actionable
decision making.**

**Isn't it about time
you owned an Onyx?**
